# About The Colorado Health Foundation

- CHF is a statewide philanthropic organization that champions the overall health and well-being of every Coloradan
- We do this by advocating for and investing in solutions and policies that drive health equity and racial justice.
- We collaborate with organizations and communities across Colorado to break down the many systemic barriers to achieving health and well-being.
- We believe that health and well-being can be in reach for everyone.

# About Pulse

- Launched in 2020, it's an annual poll that takes the *pulse* of Coloradans on a range of issues that impact health and well-being.
- We share all the results with policymakers, community leaders and the media.
- Pulse helps us hear from people beyond our usual circles, giving us a deeper understanding of what Coloradans are experiencing.
- As part of our commitment to racial justice, we oversample African Americans, Asian Americans and Pacific Islanders, and Native Americans to ensure their voices are represented in the data.

# Survey Specifics and Methodology

(Not All Results Will Sum to 100% Due to Rounding)

Dates	April 19-May 18, 2025
Bipartisan Research Team	FM3 Research (D) and New Bridge Strategy (R)
Survey Type	Dual-mode Phone and Online Survey of Adult Coloradans
Research Population	2,333 Coloradans including oversamples of Black/African-American, American Indian/Alaska Native , and Asian-American Coloradans, as well as residents of Morgan County
Margin of Sampling Error	±3.07% at the 95% Confidence Level

	Western Slope (5)	13%

# Coloradans value the state's beauty, outdoor access, and a strong sense of community.

Q13. Next, other than the weather, which aspects of life in Colorado do you value most?

(Open-ended)

# Verbatim Comments Describing Most Valued Aspect of Life in Colorado

13. Next, other than the weather, which aspects of life in Colorado do you value most?

(Open-ended)

“

The beautiful mountains, the emphasis on environmental agendas, and my community.

“

Abundance of hiking, fishing and camping opportunities.

“

I like the views and sunshine! And that it's a more politically liberal state.

“

I enjoy the hospitality of the general state, for an individualistic culture I've found it's kinder than a lot of other western states. That, and there are many resources available to help me if I need. Even if they may need improving, I appreciate that the state has them at all.

“

Equality, diversity, affordability.

“

Western slope landscape and mountains.

“

Love the people and the landscape. Everything is breathtaking. Nature.  
Love Denver.

“

Welcoming community to refugees and immigrants, mountains and beautiful scenery, bike trails in the city, general safety.

The Colorado Health Foundation Poll

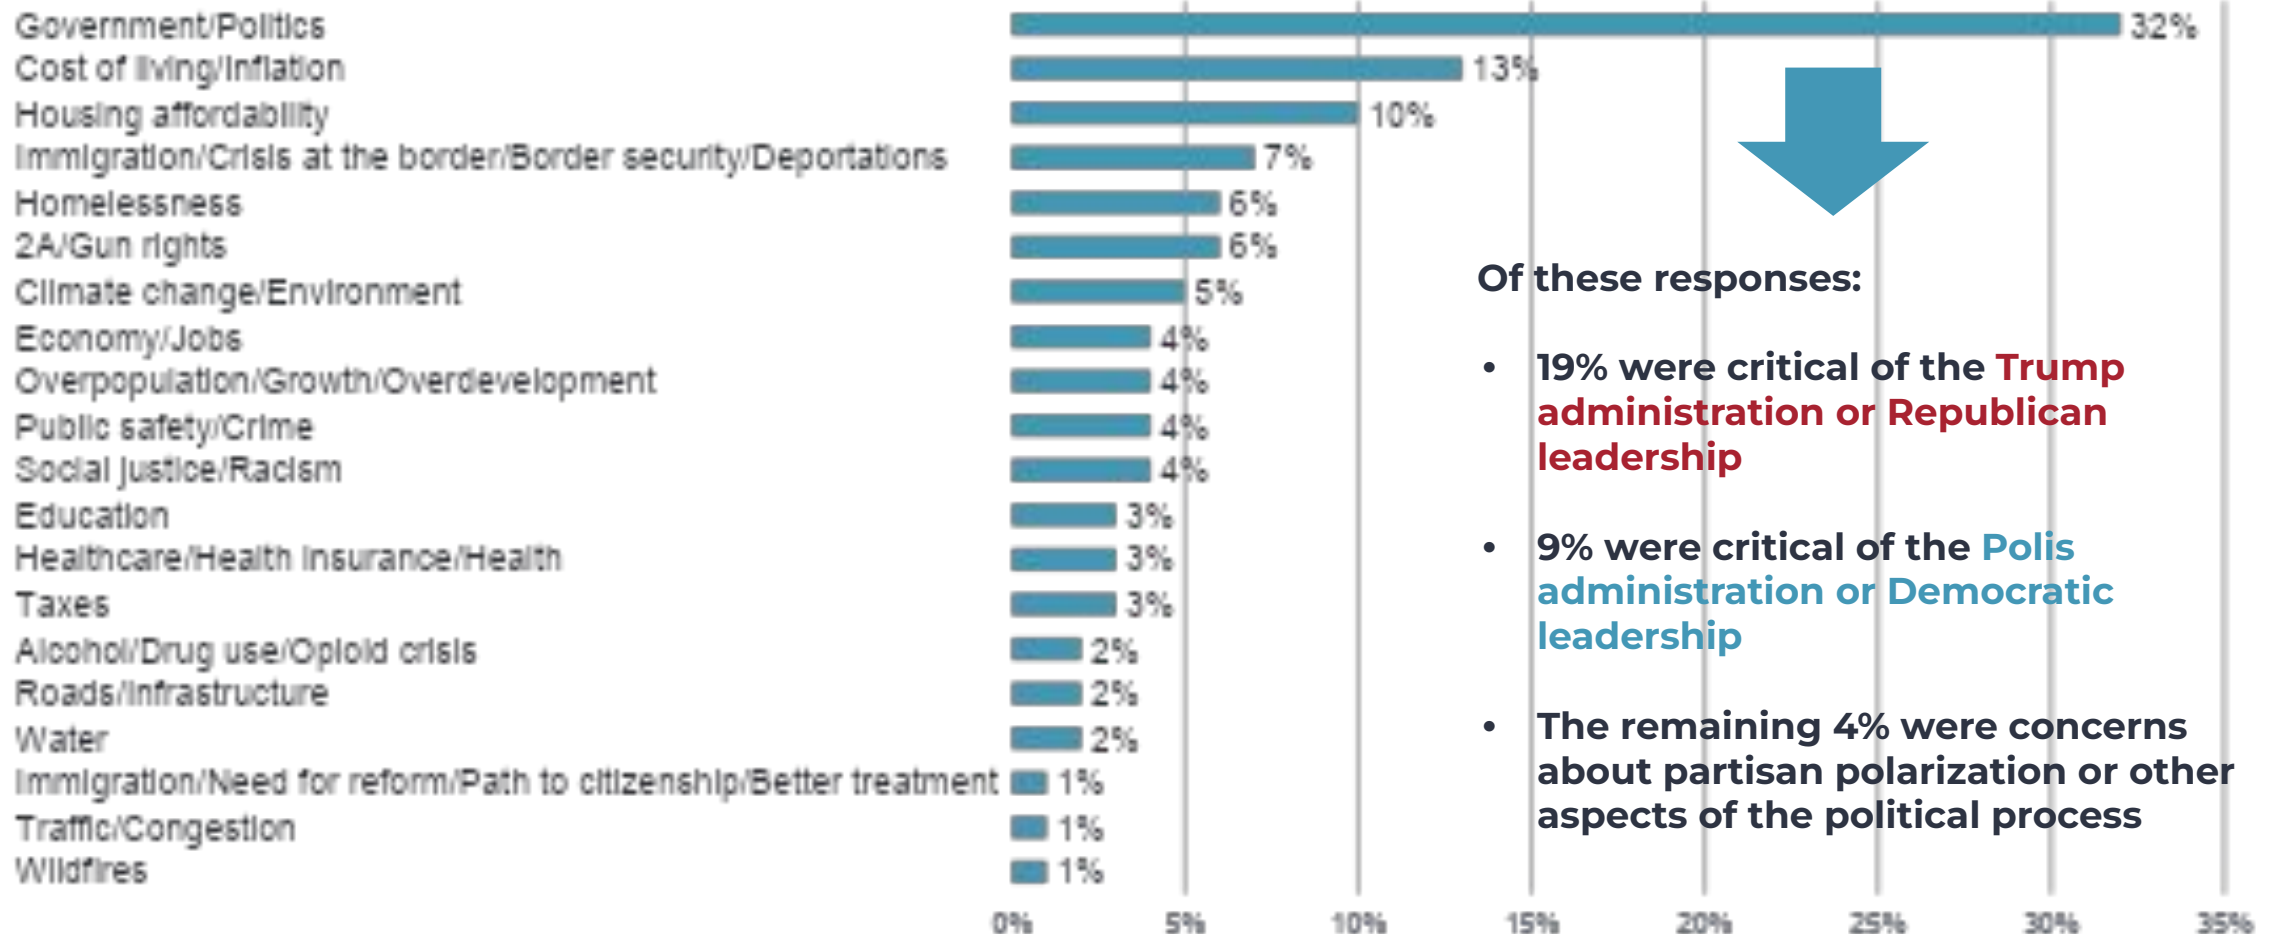

# Top Concerns for Coloradans

# Concerns related to government and politics are volunteered as the most important issues facing Colorado.

Q14. And in a few words of your own, what is the most important issue facing Colorado right now?

(Open-ended)

# Verbatim Comments Describing the Most Important Issue Facing Colorado

Q14. And in a few words of your own, what is the most important issue facing Colorado right now?

(Open-ended)

“

The price of living, especially housing.

“

Illegal drugs & homelessness.

“

Politics. Keeping ICE from deporting anyone they think they can kidnap without due process.

“

Losing federal funding for institutions such as libraries and schools, public land being sold to the private sector, high cost of living.

“

Affordability and making it complicated to build or other things.

“

Cost of living i.e., taxes, cost of food, electricity.

“

Like the entire country - extreme views from either side over exaggerating things & not working together for the overall best answer.

“

How about getting rid of the ignorant liberals who are trying to destroy our state!!!

“

Threats to economy from tariffs.

“

Encroaching authoritarian overreach by a fascist, narcissistic president.

“

Environmental issues, education, protecting immigrants.

“

On the state level I think I would say homelessness is most important to address.

# Concern around government and politics has risen dramatically in the last year.

Q14. And in a few words of your own, what is the most important issue facing Colorado right now?

(Open-ended)

# Cost of Healthcare

# Concern about the cost of healthcare has increased relative to prior years.

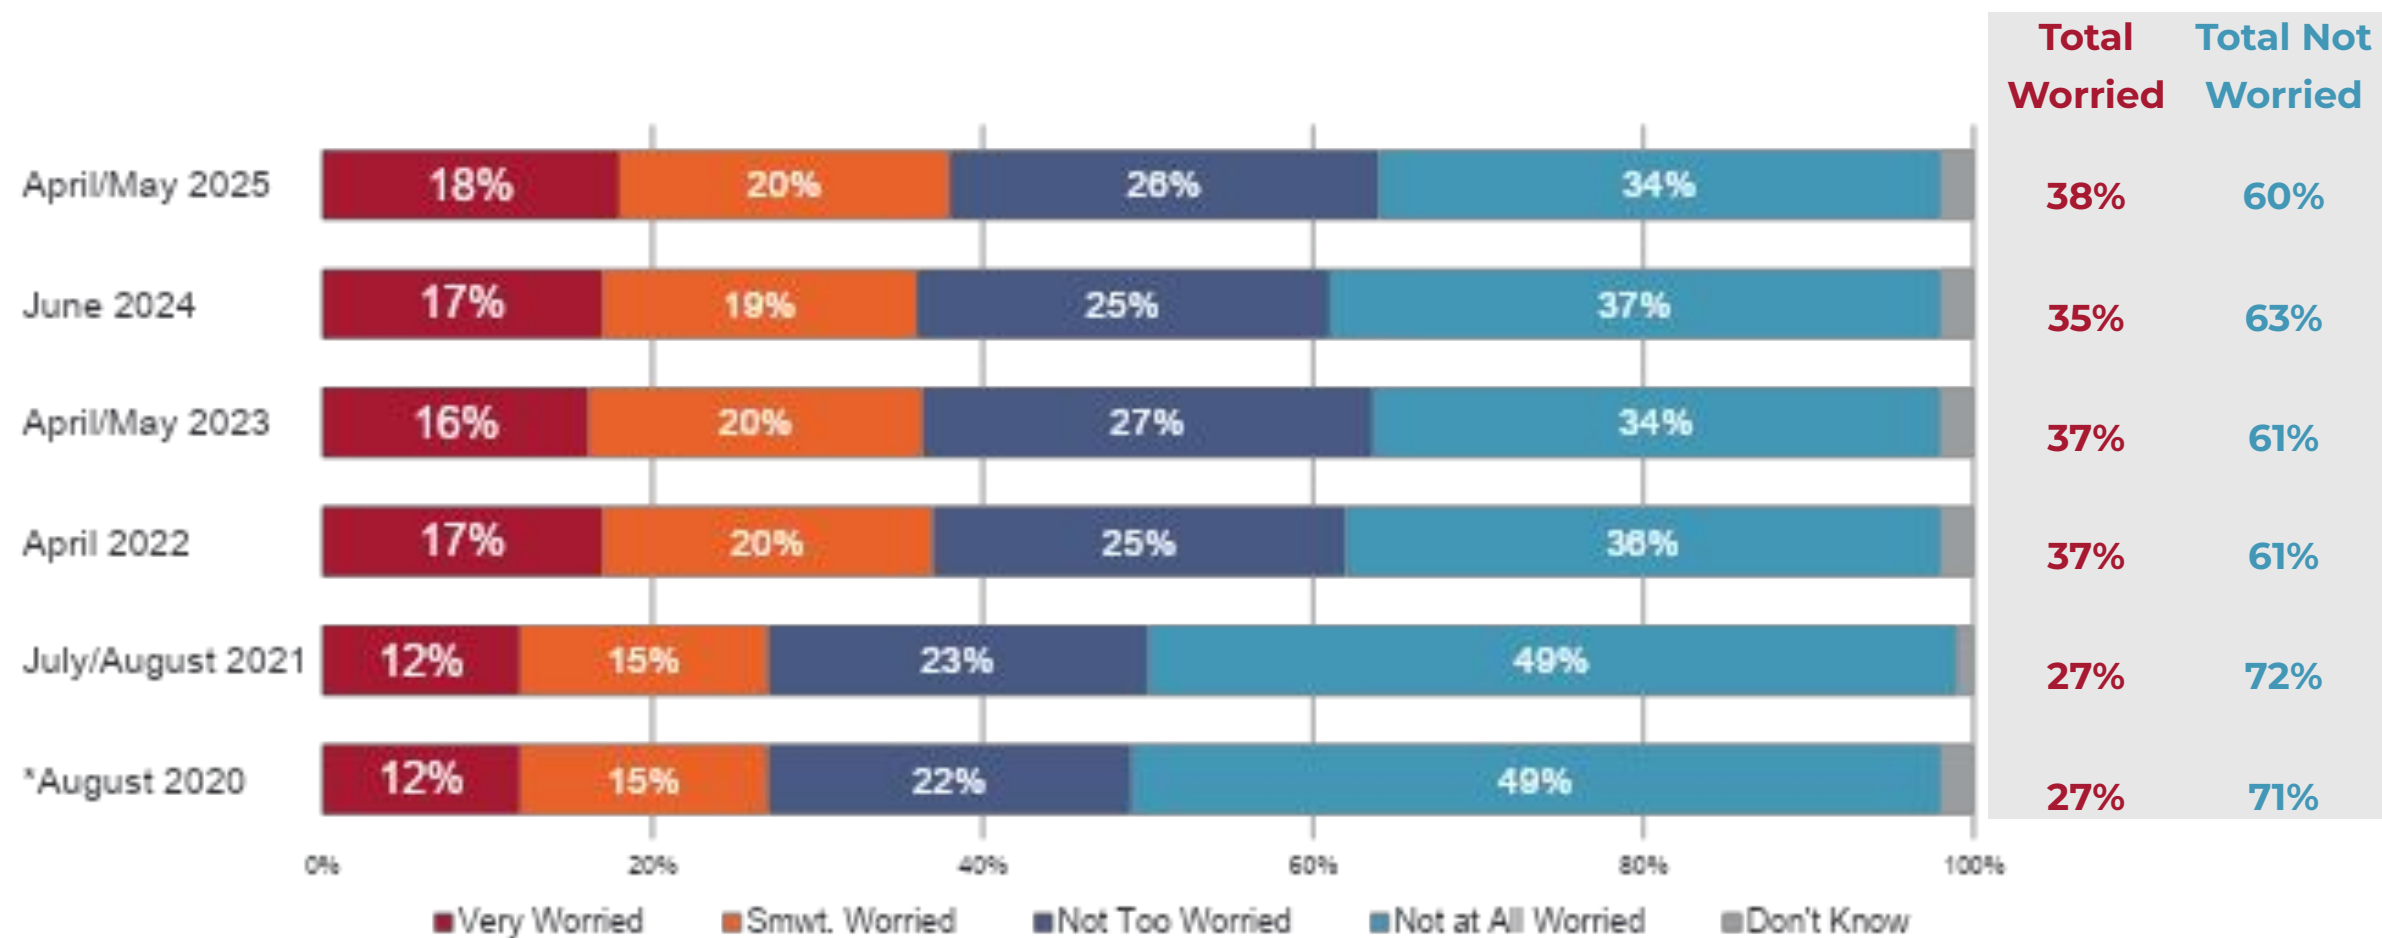

Q15d. Please consider the following issues that some people suggest are problems facing Colorado. Please indicate whether you think it is an extremely serious problem, a very serious problem, a somewhat serious problem, or not too serious a problem for residents of Colorado.

(The Cost of Healthcare)

# More than one-third are worried that they or someone in their household will be without health insurance coverage in the coming year.

Q20. Thinking ahead over the next year, how worried are you that you or someone else in your household will be without health insurance coverage?

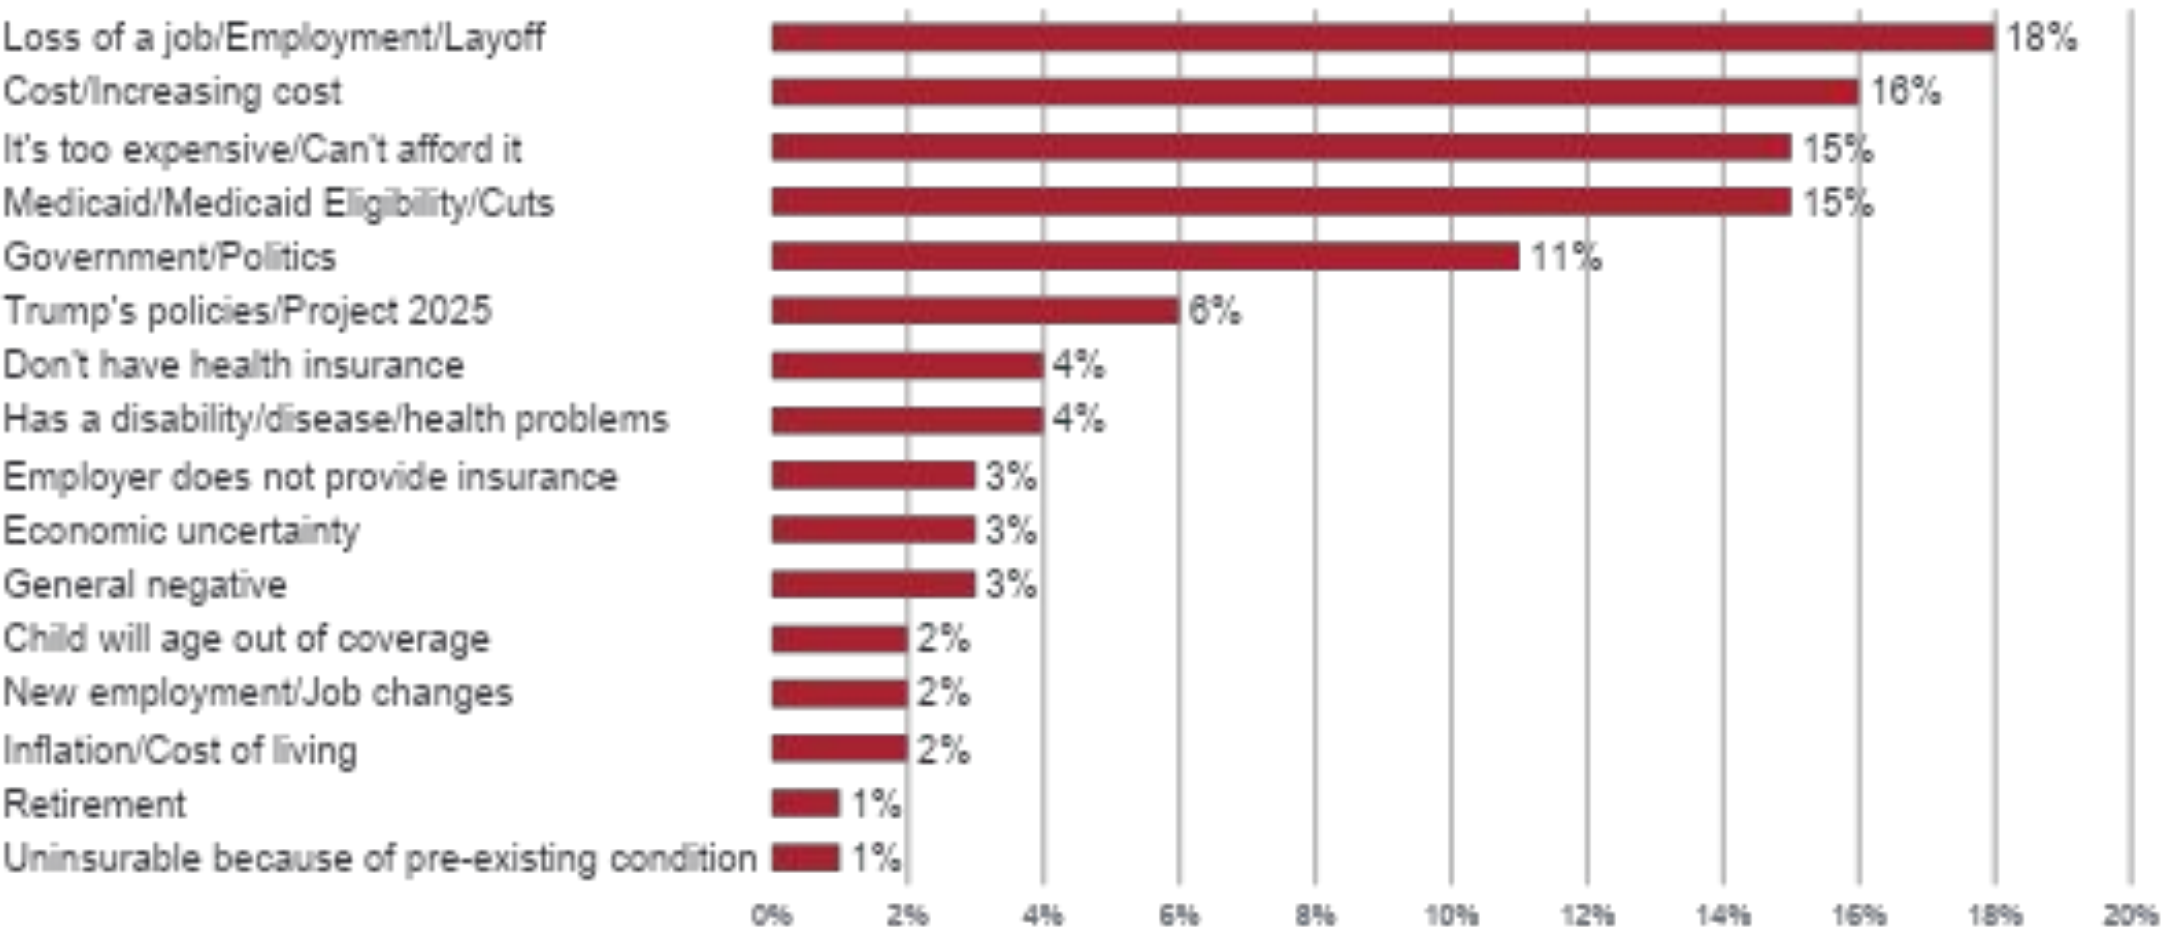

\*Wording Slightly Different

# The top factors that make Coloradans worry about losing health coverage all relate to cost.

21. Why are you worried that you or someone else in your household will be without health insurance coverage?

(Open-ended; n=890)

# Verbatim Comments Describing Concern About Health Insurance Loss

Q21. Why are you worried that you or someone else in your household will be without health insurance coverage?

(Open-ended; n=890)

“

Because I pay out of pocket for ridiculous priced health insurance.

“

Threatened cuts to Medicare by GOP in congress.

“

Trump making insane cuts to public services like Medicaid.

“

I don't have insurance right now. I was laid off and I can't afford healthcare.

“

Because of cuts to Medicaid/Medicare/increasing insurance costs.

“

Constant layoffs and the job market.

“

We are already without. \$1500+ for the worst plan available and high deductibles.

“

Job security is extremely tenuous right now and that's how I can afford health coverage.

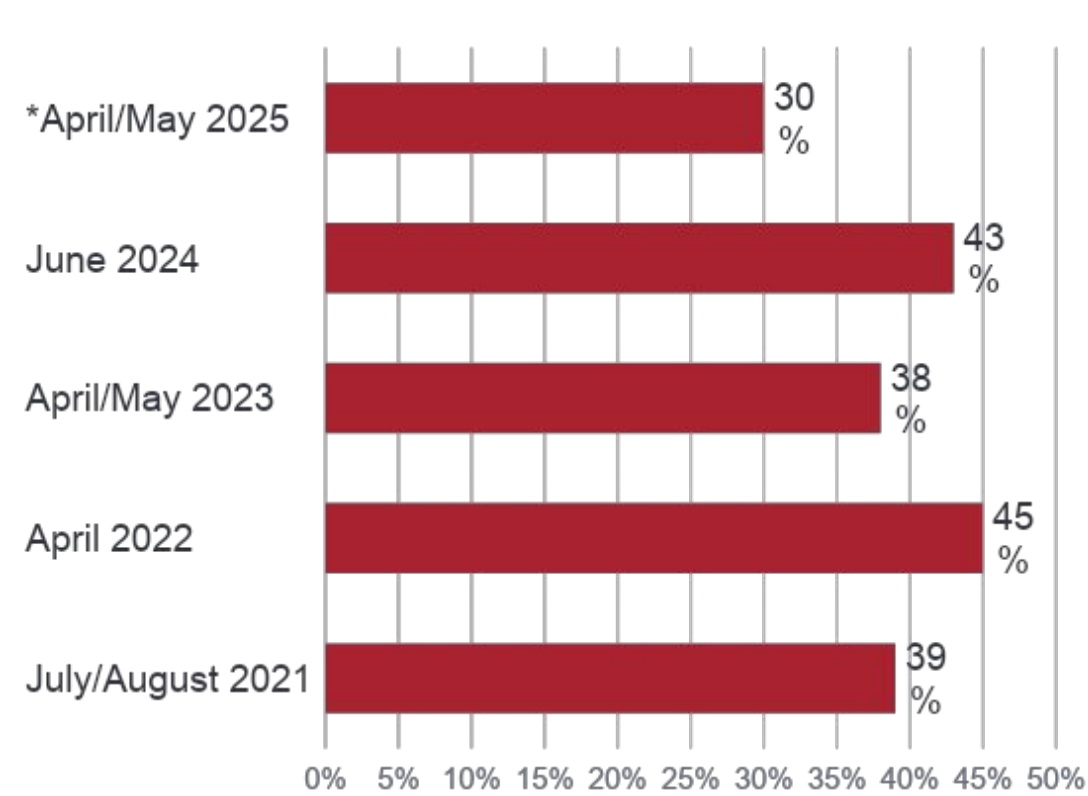

“

Because the current government is trying to take away Medicare and cut benefits to those that worked for it.

# Just under one-third have postponed medical care in the last year.

Q23b. In the last 12 months, have you experienced any of the following? Postponed medical care
